Precision Laser Engraving Machine

Machine Size

416*363*138mm

N.W.

1.84KG

Operation system: Windows

Power Supply: 100-240V 50/60Hz

Engraving Size: 170*200mm

Laser Source: Semiconductor Laser

Laser Wavelength: 405nm

Power Output: 1.6W

Engraving Software: CrealityLaser

File format: JPEG.JPG.PNG.BMP.SVG

Filament: Paper, wood, bamboo, rubber, leather,
fabric, acrylics, plastics, etc.

Eye Protection Bezel

Patented design for light shield
Effectively block 90% of
the leakage light

Large Engraving Size

The engraving area can
be up to 170*200mm
